

0_FILE_LISTING_AND_NAVIGATION

COMPLETE INSIGHTS FOLDER FILE LISTING

Sequential Order for Easy Navigation

INSIGHTS FOLDER CONTENTS (Numbered Sequence)

0. FILE_LISTING_AND_NAVIGATION.md

Purpose: Complete index and navigation guide

Content: Sequential file listing, reading paths, cross-reference matrix

Audience: All users for system navigation

1. EXECUTIVE_SUMMARY.md

Purpose: High-level overview and key findings

Content: Business-focused insights, ROI projections, implementation roadmap

Audience: Executives, stakeholders, project sponsors

2.

MENTAL_HEALTH_DATASET_COMPREHENSIVE_ANALYSIS.md

Purpose: Detailed data science analysis of the mental health dataset

Content: Descriptive statistics, correlation analysis, risk profiling

Audience: Data scientists, analysts, technical stakeholders

3. STATISTICAL_VALIDATION_ANALYSIS.md

Purpose: Inferential statistics and hypothesis testing

Content: Statistical significance tests, model validation, clinical cut-offs

Audience: Researchers, statisticians, clinical validators

4. MACHINE_LEARNING_PIPELINE.md

Purpose: Complete ML workflow and architecture documentation

Content: Preprocessing steps, model selection, training pipeline, deployment

Audience: ML engineers, developers, technical implementers

5. PRACTICAL_IMPLEMENTATION.md

Purpose: Hands-on code examples and implementation guides

Content: Working code examples, API implementation, batch processing

Audience: Developers, implementation teams, system integrators

6. QUICK_REFERENCE_PREDICTION_SYSTEM.md

Purpose: Fast-start guide with prediction examples

Content: Quick usage examples, three detailed case studies, system capabilities

Audience: End users, practitioners, quick reference seekers

7. MODEL_EXPLANATION_GUIDE.md

Purpose: Detailed reasoning behind all predictions

Content: Why explanations for each prediction type, input-output logic

Audience: All users who want to understand prediction rationale

8. RISK_CLASSIFICATION_REFERENCE_CARD.md

Purpose: Comprehensive guide to mental health risk levels

Content: Low/Medium/High risk criteria, characteristics, examples

Audience: Clinicians, HR professionals, anyone interpreting risk scores

9. TREATMENT_SEEKING_GUIDE.md

Purpose: Understanding treatment likelihood predictions

Content: Factors influencing treatment seeking, when/why treatment needed

Audience: Healthcare providers, counselors, HR wellness teams

10. SYMPTOM_SCORE_INTERPRETATION.md

Purpose: Depression/anxiety score explanation guide

Content: Score meaning, contributing factors, improvement strategies

Audience: Patients, caregivers, mental health professionals

11. MODEL_TECHNICAL_SPECIFICATIONS.md

Purpose: Detailed model performance and technical details

Content: Accuracy metrics, validation results, algorithm specifics

Audience: Technical stakeholders, compliance officers, auditors

READING RECOMMENDATION PATHS

For Executives/Stakeholders:

1. EXECUTIVE_SUMMARY.md → High-level overview
2. MODEL_TECHNICAL_SPECIFICATIONS.md → Proof of effectiveness
3. QUICK_REFERENCE_PREDICTION_SYSTEM.md → Practical capabilities

For Technical Teams:

1. MENTAL_HEALTH_DATASET_COMPREHENSIVE_ANALYSIS.md → Data understanding
2. MACHINE_LEARNING_PIPELINE.md → Implementation architecture
3. PRACTICAL_IMPLEMENTATION.md → Code examples and deployment

For Clinical/HR Users:

1. RISK_CLASSIFICATION_REFERENCE_CARD.md → Understanding risk levels
2. TREATMENT_SEEKING_GUIDE.md → Treatment recommendations
3. SYMPTOM_SCORE_INTERPRETATION.md → Score explanations
4. MODEL_EXPLANATION_GUIDE.md → Why prediction rationales

For Researchers/Validators:

1. STATISTICAL_VALIDATION_ANALYSIS.md → Methodological rigor
2. MODEL_TECHNICAL_SPECIFICATIONS.md → Performance evidence
3. MENTAL_HEALTH_DATASET_COMPREHENSIVE_ANALYSIS.md → Data quality

CROSS-REFERENCE MATRIX

Topic	Primary File	Supporting Files
Risk Prediction	RISK_CLASSIFICATION_REFERENCE_CARD.md	MODEL_EXPLAN, QUICK_REFEREN
Treatment Guidance	TREATMENT_SEEKING_GUIDE.md	MODEL_EXPLAN, SYMPTOM_SCOF
Score Interpretation	SYMPTOM_SCORE_INTERPRETATION.md	STATISTICAL_VAI, MODEL_EXPLAN,
Technical Details	MODEL_TECHNICAL_SPECIFICATIONS.md	MACHINE_LEARN, PRACTICAL_IMPI

Topic	Primary File	Supporting Files
Implementation	PRACTICAL_IMPLEMENTATION.md	QUICK_REFERENCE MACHINE_LEARNING

This organized structure ensures easy navigation and comprehensive understanding of all aspects of the mental health prediction system
