

SLIDE_2_PROBLEM_EXPLANATION

SLIDE 2: PROBLEM STATEMENT EXPLANATION

SLIDE CONTENT

Header: "The Mental Health Crisis"

Main Points:

- 1 in 5 adults experience mental illness annually
- 50% of mental health conditions begin by age 14
- Average delay between onset and treatment: 11 years
- Stigma prevents 60% of people from seeking help
- Lack of early screening tools in primary care

Supporting Data:

- "Mental health disorders affect 970 million people worldwide" - WHO
- "Early intervention can reduce severity by 50%" - Research studies

PURPOSE OF THIS SLIDE

This slide establishes the **problem context** for your project. It explains why your solution is needed by highlighting:

1. **Scale of the Problem:** How widespread mental health issues are
2. **Age Factor:** When mental health conditions typically begin
3. **Treatment Delay:** How long people wait to get help
4. **Barriers to Care:** Social and systemic obstacles
5. **Gap in Healthcare:** Missing screening tools

SPEAKING POINTS

- "Mental health is a global crisis affecting nearly 1 billion people worldwide"
- "Half of all mental health conditions begin by age 14, yet treatment is often delayed"
- "There's an average 11-year gap between symptom onset and treatment"
- "Stigma and lack of screening tools contribute to this delay"
- "This creates a critical need for early detection and intervention tools"

KEY MESSAGES

- Mental health issues are widespread and growing
- Early intervention is crucial but often delayed
- Current healthcare systems lack adequate screening tools
- Technology can bridge this gap
- Your project addresses a real, urgent need

STATISTICS TO REMEMBER

- 1 in 5 adults = 20% of population affected annually
- 50% start by age 14 = childhood/adolescent origins
- 11-year delay = significant untreated suffering
- 60% deterred by stigma = social barriers exist
- 970 million globally = massive scale of issue

DESIGN ELEMENTS

- Infographic showing mental health statistics
- Timeline graphic showing treatment delay
- Icons representing barriers to care
- Visual emphasis on key numbers

This slide builds urgency and demonstrates the need for your solution
